155 Trucks Checked; 7 Violations

Seven violations were discovered at a roadblock on Route 81 Friday near the Arsenal street overpass.

Of the 155 trucks checked for compliance with the state truck mileage tax law and the motor vehicle and traffic laws, three were found to have no tax permits, while four others were accused of traffic law infractions.

The roadblock was conducted by a team of state tax examiners from the Utica district office and Troopers J. B. Kavanaugh and D. G. Hall. Richard Wiley, a Watertown native, was one of the tax department representatives.

WASHINGTON — Complete results for 767,935

young men who took college draft deferment tests last May and June show that more than

81 per cent achieved passing scores, selective service headquarters said today.

The tests were administered nationwide on May 14 and 21 and June 3 and 24.

The four 1966 tests were taken by more young men than the total of 28 tests administered during the 1951-63 so-called Korean war era when tests were last administered to guide local draft boards in granting students deferments. During those 12 years, 617,188 men took the tests and 64 per cent achieved passing scores of 70 or better.

Selective service spokesmen said analysis of the 1966 tests indicates a gap which existed during the 1951-63 testing apparently has been closed by the way the new tests were written.

This time, a spokesman said, students in the humanities scored "much the same" as physical science or mathematics students. In the 1951-63 period, physical science and mathematics majors consistently scored higher than any other study group.

In addition, students in three other fields—social sciences and history; engineering, and biological sciences and medicine—scored within two points of the average achieved by those in the humanities.

Test samples showed that students of agriculture, education and in such other fields as fine arts were below average in achieving passing scores, but even in those groups more than 72 per cent of the men taking the tests scored 70 or better.

Draft headquarters said that although men who took the tests were not notified of their scores, local draft boards have been provided test results.

By geographic area, men registered in New England local boards scored highest—93 per cent making 70 or better. Alabama, Mississippi, Tennessee and Kentucky were lowest, with only 53 per cent scoring 70.

Other regions scored as follows: Middle Atlantic (N. Y., N. J., Pa.) 91 per cent; east north central (Ill., Ind., Mich., Ohio, Wis.), 88 per cent; Pacific (Calif., Ore., Wash.), 87 per cent; west north central (Iowa, Kans., Minn., Mo., N. D., Mich., S. D.), 84 per cent; south Atlantic (D. C., Del., Fla., Ga., Md., N. C., S. C., Va., W. Va.), 78 per cent; mountain (Ariz., Colo., Ida., Mont., Nev., N. Mex., Utah, Wyo.), 78 per cent; noncontiguous areas (Alaska, Hawaii, Canal Zone, Guam, Puerto Rico, Virgin Islands), 72 per cent; and west south central (Ark., La., Okla., Tex.), 68 per cent.

Completing their 20-year sentences Sept. 30 are former German armaments Minister Albert Speer, 61, and ex-Nazi youth leader Baldur von Schirach, 59.

The only remaining prisoner in the six-acre prison will be onetime Nazi Deputy Fuehrer Rudolf Hess, 72, who is serving a life sentence imposed during the Nuremberg war crimes trials.

Annual cost of operating the prison, guarded by soldiers of the four nations, is about \$100,000. The West German government foots the bill as part of war reparations.

His wife, Patricia, 39, was reported in serious condition at the hospital.

State Police said their car crossed the center mall of the Thruway, near Fort Plain, and crashed into a tank truck.
